SUBJECT: Transfer of System IV #103

Dear Dan:

In accordance with the request of Mr. Bissell at the 12 December 1957 Los Angeles conference, this letter will serve as authority to direct the Contractor to divert the delivery of System IV #103 from F.O.G. to [redacted] 25X1

As was pointed out at the 12 December meeting, the importance of equipping F.O.G. with a training capability in IV cannot be over-emphasized. Accordingly, concurrent with delivery of System IV #103, it is requested that #101 or 102 be expeditiously returned for shipment to F.O.G. It is further requested that the Contractor be advised that upon delivery of operational System IV #104 or subsequent units, the #101 or 102 will be returned for modernization and rework consistent with the operational reliability of #103. Cost of such rework will be charged against Project Funds.

Sincerely,

25X1
